DENIES CONFERENCE TO SETTLE STRIKE

Electrical Union Leader Says
None Is Being Held But
Daugherty Is Pleased

(By Associated Press)
Washington, Sept. 7.—J. P. Noonan, chief of the Brotherhood of Electrical Workers, one of the seven rail unions on national strike, today declared that no conference is in progress now between the leaders of the railroad strikers and the railroad presidents, and none has been held since the formal gathering in New York last month. He said the meeting of the strikers' policy committee next week in Chicago is merely to consider a general strike policy and also to consider what will be done about the Daugherty injunction. The strike situation throughout the country is steadily improving, Attorney General H. M. Daugherty said today. He said that within the past few days approximately 300 federal emergency marshals were laid off and apparently every one is settling down. He expressed the view that "everything will come out all right."

WIFE TO TELL ALL OF UNUSUAL STORY

(By Associated Press)
South Bend, Ind., Sept. 7.—There will be separation in the Tiernan family, at least not until the courts dispose of the charges filed against Harry Poulin, local merchant, that he is the father of Mrs. Tiernan's son born last November, it was made known at the Tiernan home today. John P. Tiernan, professor of law at University of Notre Dame, and his wife, Augusta, are apparently happy in their devotion to their three children including the baby born last November. Poulin's preliminary hearing is set for September 14. Mrs. Tiernan today reiterated she would take the witness stand and relate the entire story of her relations with Poulin.

CO-OP. LAMB SALES SUCCESS IN FAYETTE

The final lamb sale of the Fayette county Lamb and Wool Co-operative Association was held Wednesday. Approximately a thousand lambs were sold for an average price of near \$10 a head. Will Tremere was the heaviest buyer. He paid the top price, giving \$13.95 a hundred pounds for 123 trimmed lambs averaging 78 1/2 pounds. He bought 140 lambs averaging 73 pounds, at \$12.60; 103 lambs averaging 70 pounds at \$12.50; and 112 lambs averaging 70 pounds at \$12.25. Len Weil bought 250 seconds averaging 63 pounds at \$8.10, and 136 ewes averaging 58 pounds at \$9. This is the first year of the co-operative association and the sales have stamped it a success. Higher prices than prevail on the Cincinnati market were obtained at these sales. Another advantage to the farmers was the lack of shrinkage which would naturally occur during the trip from Lexington to Cincinnati. A resume of the season shows that more than 16,000 lambs have been sold during the sales, and have brought to the farmers close to \$150,000.

GIRL TEACHERS LEARN SPANISH IN MEXICO

(By Associated Press)
Mexico City, Sept. 7.—The time-honored conception of the typical school mar'm — sharp features, spectacles, hair tightly coiled in a knot at the top of the head — has been pleasantly corrected here during the past few weeks by more than 1,000 young women school teachers from the United States who have been taking special summer courses in Spanish at the national university. Almost "flapperesque" but not too much so, they clustered in the downtown streets every afternoon when classes were over to do their window shopping. What with swagger sticks, sport clothes and startling coiffure, they presented a charming array of American womanhood that gave the "fiffs," those self-appointed judges of all feminine beauty in Mexico City, some hectic moments.

The young women came from all parts of the United States from Maine down the coast to Florida and from Washington to Los Angeles and from the mid-west they flocked here at the close of the school terms in the states to gain an intimate knowledge of the Spanish language by studying it in its native haunts. The Mexican government provided a number of courses in Spanish and supplementary studies, and also furnished free transportation from the border to Mexico City and return. There were a few men teachers along but their numbers were negligible.

Peasants Devise Simple Trap For Locusts

(By Associated Press)
Kazan, Sept. 7.—Thousands of miles of ditches bordering fields of grain have been dug by the peasants along the Volga to protect their crops from an invasion of locusts. Partly by this means and with the assistance of the government which used poison gas, the grain was saved. The ditches act as a trap. The locusts crawled into them, whereupon the peasants gathered in crowds, men, women and children, and shoveled earth on top of the insects. The method was very effective.

The French and Italians have landed marines and called on their male nationals to serve as a volunteer corps. Greek troops from Thrace with Venizelos officers have arrived and are organizing resistance.

A Modern Solomon

St. Paul, Minn., Sept. 7.—Ownership of a very woolly French dog was up for determination by Judge John L. Rounds in conciliation court in St. Paul. "Stand over there," the court directed Mrs. John Ushoff, who brought the dog into court, "and you over there," he told Mrs. Jas. Branson. Then the court took the dog, and as both women called to it, released the animal, which bounded to Mrs. Ushoff. "The dog belonged to Mrs. Ushoff," the court ruled.

W. G. McADOO

(By Associated Press)
New York, Sept. 7.—William G. McAdoo, former secretary of the treasury, is an avowed candidate for the democratic nomination for president in 1924. William C. HEARD ABOUT TOWN

The Richmond city council meets in regular monthly session tonight at the city hall at 7 o'clock.

Some of the finest eating apples you ever put in your mouth were brought to the Daily Register office by W. M. Jennings, of Foxtown. Mr. Jennings didn't know the variety, but says he has 13 trees which were loaded, and he's making lots of sweet cider as well as all his folks can eat.

Hubert C. Carpenter, Milner fire agent at Atlanta, Ga., is here on his vacation. He is the guest of his sister, Mrs. Homer W. Carpenter and Dr. Carpenter at their residence on Lancaster avenue. Mr. Carpenter is a veteran of the world war, having served across the waters. He is a native of Stanford, Lincoln county, and has many warm friends all over this section of the state.

The Danville Advocate said Wednesday: Mr. R. S. Terrill, of Richmond and Washington, who has been traveling throughout the Eighth Congressional District in the interest of Hon. Ralph Gilbert, was in Danville last night and today. He finds things in splendid condition wherever he has been, he reports. Mr. Terrill is the efficient secretary to Mr. Gilbert and makes friends wherever he goes.

The Advocate also had this: Mr. T. C. Hubble sold a carload of cattle, which were delivered yesterday at 8 cents per pound. These cattle went to Richmond.

The Stanford Journal says of cattle sales in Lincoln made by farmers who are well known here as follows: Harris & Woods, Col. T. S. Harris and Robert Benton Woods, have sold to the United Dressed Beef Co., of New Jersey, their splendid bunch of fat cattle at 8 3/4c per pound, less three per cent shrinkage. They were loaded in three cars Monday and averaged 1,425 pounds. They were as fine a lot as mortal eyes ever rested on.

The Cynthia Deomercat said: A flivver stopped at a Cynthia's soft drink emporium Saturday night. Two youths and two maidens alighted and had a round of coca cola. Then they hopped back into the machine, a few lighted cigarettes and drove merrily on.

"SOW" HEMP SEED TO ATTRACT DOVES

Sam Gentry, district game warden, came over from his home in Stanford Thursday morning to investigate how many of the boys were shooting doves without licenses and how many were bagging over the legal limit which is 15 a day. He came by Nicholasville where he obtained nine convictions in county court of hunters who had shot over the limit. Mr. Gentry says that many fields were "sowed" with hemp seed in Jessamine county to attract the doves, and hunters there have had an unusually good crop of birds as a result. He was accompanied here by Luther Powell, as a deputy.

HIKERS PAY VISIT TO RICHMOND

Martha Van Meter, of Lexington, and Edith Power, of New York City, passed through Richmond Tuesday enroute to Berea. They are the young ladies who hiked from New York to Lexington recently. While here they called to see a number of their friends and described their trip to them. It took only a little over a week for them to make the trip, they say. The longest they ever walked was about ten miles. Tourists picked them up all along the way and carried them sometimes to the next city. While on the trip the young ladies spent the night at Y. W. C. A. buildings in the various towns. While on the trip each young lady said that they spent not over \$18. The worst roads that they experienced were between Cincinnati and Lexington. Miss Power is a costume designer for the John Wanamaker Company in New York. Both attended Columbia University in New York this summer.

SLIGHT BLAZE ON PRATHER STREET

The fire department answered a call from Prather street about one o'clock Thursday afternoon, which proved to be only a slight blaze. Some clothes which were placed too close to the cook stove became ignited, which caused the department to be summoned. When the fire ladders arrived on the scene the blaze had been extinguished. The hose was not attached nor the chemicals used. This is the second time within the last few days that the fire truck has rushed to the scene to find the blaze out.

No matter what the damage it can be protected with an insurance policy written by the Burman's Insurance Agency.

Policy Committee Called

Chicago, Sept. 7.—A call for an immediate meeting of the policy committee of 90 in Chicago probably Monday, was sent out by John Scott, secretary of the striking shop craft unions. The telegraphic appeal was addressed to the regional general chairmen of the organization in all parts of the country. It was expected that it would be several days before they could arrive in Chicago and for that reason no general sessions were expected before next week. The meeting was called, it was intimated, to consider plans for a settlement of the strike on separate roads representing about one-third of the country's mileage. It followed reports of conferences between B. M. Jewell, head of the strikers, and rail executives in the east.

After that date no new members will be received for this year, it was provided in the resolution.

A total membership of 67,709 was shown in the report of Assistant Chief of the Field Service Division William Collins, who estimated that the total number of members of the Association in Kentucky, Ohio, Indiana, West Virginia and Tennessee will be more than 75,000 before the tobacco of the 1922 crop is delivered to the association.

RED BERKSHIRE HOGS BECOMING POPULAR

County Clerk "Brother" Turley, local breeder of registered Kentucky Red Berkshire hogs, has made several nice sales in the last few days. This breed of hogs is spreading all over the states and the hogs are making names for themselves wherever they go. The latest sales of Mr. Turley are to R. T. Mayes, of Cammack, Ga., and E. J. Yoder, of Sugar Creek, O. These gentlemen have sent letters here to Mr. Turley praising his hogs. Most of them have been sold in the southern states but recently many have also been shipped to breeders in the northern states. R. T. Bruce, of Stanford, another breeder of these hogs, was in Richmond court day and announced several nice sales. They are to Carl A. Longacre, of Augusta, O., W. B. EXCHANGE CLUB OFFERS HELP

In Securing Public Health Nurse
Offered Madison By State
Board of Health

The Richmond Exchange Club enjoyed a fine meeting Wednesday noon in their weekly luncheon at the Glynndon Hotel. A committee was appointed to do all they could to secure a public health nurse, who has been offered by the State Board of Health to Madison county. The board offers to pay her salary for the first three months which will be \$125 or \$150 and \$50 on her salary each month during the remaining nine months. This matter is at present in the hands of the Fiscal Court. The committee, composed of Mayor O'Neil, Judge John D. Goodloe, Dr. C. E. Smoot, A. R. Burnam, and H. L. Donovan, is instructed to co-operate with the court in every way possible. It is also given authority to offer to pay one month's salary of the nurse and to aid the court in every way possible in securing her.

A. R. Burnam gave a short talk to the Club on his recent trip to Europe. He gave several very interesting facts on houses and rents in England. The government will not allow the landlords to receive more than 20 per cent above what they were receiving in 1914 for rent on the houses. Homes are very scarce and little moving is being done. The landlord can not put anyone out of a house as long as he pays his rent on time. Mr. Burnam also stated that while there was a great deal of wine drinking in France there were no drunkards. The Americans and Englishmen in France were the only ones who drank whiskey to any extent. He also said that while England was noted for being a great manufacturing center that practically all of her factories were closed and for this year, it was provided in the resolution.

The local Exchange Club has the honor of furnishing the gavel used by the president of the National Convention of Exchange Clubs which will be held at Louisville from September 25 to 27. A large delegation is going down from here. One day during the convention will be held in Richmond. The club plans to go through to Louisville in autos. The wood for the gavel will be secured at Boonesboro and it is to be made as soon as possible.

PAINT LICK DOWNS DANVILLE NINE

The Paint Lick base ball nine added another victory to their list Saturday when they defeated Danville by a score of 7 to 4. Jim Lackey pitched for the victors and turned in another well pitched game. He was master the whole time and helped himself win by making three hits in four times up. Danville had a very strong line-up, having imported stars from cities surrounding her. The Danville team, however, was not strong enough for the fast Paint Lick nine who played wonderful ball behind the pitching of Lackey.

In the first two innings Danville established a two-run lead but Paint Lick tied the score in the third and went ahead by scoring four runs in the fifth. From then on the game was safe for the victors. The Paint Lick line-up is as follows: Patrick, c; Jim Lackey p; Lewis 1b; Hensley 2b; Ginter ss; John Lackey 3b; Pruitt lf; Duerston cf; Beasley rf.

The score:
R H E
Paint Lick 002 040 100-7 40 1
Danville 110 000 101-4 8 3
Batteries—Jim Lackey and Patrick; Rohan and Buntam.
